Descrizione

Lo stabilimento odierno conta su impianti moderni che producono in media 1.600 kg di caffè all'ora. Con questi numeri partiamo da Trieste, Capitale del caffè, per estenderci poi ai mercati europei ed extra-europei, offrendo anche la possibilità della produzione per conto terzi. Da quando è nata, quasi quarant'anni fa, l'azienda ha sempre guardato al futuro, ma ciò che non è mai cambiato è l'amore per il caffè e per le ricette che continuiamo a custodire e a tramandare.
